THE GAP

Most notes apps want you to organize.

A journal wants you to write.

WHAT'S DIFFERENT

Write.

A blank page. Nothing between you and the words.

Notice.

Patterns emerge over time. Quietly, without fanfare.

Reflect.

Ask the AI when you want a second perspective.

HOW IT FEELS

Quiet.

No streaks. No nudges. Just the page, when you're ready.

KEY FEATURE

Reflect *with AI.*

Ask after you write. It notices the question you hadn't thought to ask.

PRIVACY

What we will not do.

AI TRAINING

Your notes are not a dataset.

SHARING

Nothing you write leaves your account.

TRACKING

You're not a metric.

GET STARTED
